RESEARCH EXPERIENCE

Intern, Office of Institutional Research, West Chester University, West Chester, PA April 2019- June 2019

- Computed basic descriptive statistics – including creating visual representations (charts, graphs).
- Used Excel and other statistical software to help prepare data reports.
- Helped with processing of Student Rating of Instructor Survey (SRIS) and prepare report packages.

Research Assistant, UNC Center For Health Equity Research (CHER), Chapel Hill, NC
Mar 2018 – Aug 2018

- Assisted with program administrative tasks, communications, participant contact, and with qualitative data analysis on multiple projects
- Assisted with hiring and supporting field coordinators and youth mappers as well as training and field operations
- Tracked how different organizations in rural North Carolina worked together to combat CVD in that region.
- Managed social media accounts and assist with event planning (Scientific Symposium)
- Assisted with program outcome data collection and management as well as lead and conduct field checks
- Aided with qualitative study design for focus group data collection

Field Coordinator, MAPSCorps – UNC Chapel Hill June 2017 – Aug 2017

- Trained and supervised youth mappers in asset data collection and oversee day-to-day data collection in the field to ensure accuracy
- Interpreted daily field plan provided by MAPSCorps Central to optimize efficiency and productivity of the field team
- Guided development and execution of MAPSCorps research projects for presentation at Scientific Symposium

TEACHING EXPERIENCE
